

Annual Meeting Registration Fees Relative to Committee or other Meeting Attendance (On-site or Virtual)

- All committee members are to be AAVLD members in good standing per the Bylaws.
- If a person attends/participates in the Annual Meeting, including participation in committee meetings, we require them to purchase at least a one-day registration fee for meeting access (on-site or virtual).
- The association utilizes the registration fees to pay for the on-site and virtual expenses of the meeting which now includes purchasing a meeting platform for virtual attendee management, which gives all our members many more options for participation.
- Utilizing an organized meeting platform (which we purchase at significant expense) makes the whole meeting physically and technically manageable for the chairs, moderators, and meeting planners.
- Utilizing an organized meeting platform also provides access to meeting materials and recordings prior to and after the meeting. This allows the attendee experience to be flexible, efficient, and more enriched.
- Therefore, we will not consider requests for free one day or one meeting access. We want to be fair to all of those that have paid their registration fees and keep the meeting as organized as possible.
