Meghan Gibas Biography 2014

Meghan Gibas is a third year DVM student at Colorado State University (CSU) and recently completed her Master's in Public Health with a concentration in epidemiology. Meghan has been involved with numerous research projects, including work with the Applied Veterinary Epidemiology group focused on zoonotic tuberculosis. Most recently, Meghan has done research at CSU's Flint Animal Cancer Center Molecular Pathology Lab working to develop and validate protocols for the completion of canine Mast Cell Tumor Profiles on cytology samples. Meghan has also worked on research related to One Health at the Connecticut Veterinary Diagnostic Laboratory, University of Connecticut Center for Public Health, and the USDA National Center for Genetic Resource Preservation. Meghan currently serves on the boards of CSU's One Health Club, CSU's Student Chapter of the American College of Veterinary Pathologists, and CSU's Student Chapter of the American Veterinary Medical Association. Meghan hopes to go on to pursue a residency and career in pathology.
