

Dr. Jamie Rothenburger just finished a Senior Residency in Veterinary Anatomic Pathology at the Western College of Veterinary Medicine, University of Saskatchewan. Degrees include DVM (2010) and MVetSc (2012, Anatomic Pathology-Wildlife Option), both from the University of Saskatchewan. Prior to undertaking diagnostic pathology training, Dr. Rothenburger practiced as a mixed-animal veterinarian. As an active science communicator to the general public, Dr. Rothenburger is a regular contributor to several popular press publications and social media. Research interests include pathology, infectious diseases, wildlife diseases and zoonoses. In her free time, she enjoys reading, crocheting and learning about animal behaviour and training.
